

Public Notices (Bulletin Board) Policy

Wabasso Public Library

Purpose

Among its many functions, the Wabasso Public Library is a place of public gathering. The Library Board therefore recognizes the Library's obligation as a public space to allow the posting of public notices which have a civic, educational, or cultural purpose.

General

Bulletin board materials may be submitted for posting by nonprofit organizations for civic, educational, or cultural purposes. Limited space generally allows only short-termed notices. The Director must approve all postings.

Each item posted must be dated. Library staff will place and remove postings promptly. Unless other arrangements are made, items must be picked up the day following the date of the publicized event if the owners want them returned. The Library will not be responsible for returning materials.
